

TO WHOM IT MAY CONCERN

Mr Aw Khee Giap was the appointed project manager for our house renovation from August to November 2005. Prior to commencement of the work, Mr Aw had shown full commitment often corresponding the renovation plan to us even when we were still residing overseas at that point.

During the course of renovation work, I found him a responsible and patient person. He was friendly and easy to work with, accommodating to changes made on our original renovation plans even when it was last minute.

We concluded that Mr Aw was most resourceful dealing with costs, and he often was able to present quality building materials at truly reasonable cost. We were also extremely satisfied with the quality of carpentry works as we received many praises from visitors.

Most importantly, he managed his co-workers and sub-team efficiently, coordinating the project seamlessly to complete our renovations within a tight schedule without ever compromising the quality of work.

It is also worth mentioning that his responsive attitude remained after completion of our house and he had gone the extra mile having dropped by several times to inspect and put final touches to ensure our total satisfaction.

I highly recommend the professional service of Mr Aw Khee Giap for your home renovations and I am convince you will likely be a satisfied customer like us.

Yours sincerely,

Mr and Mrs Poh
