### **Testimonial Letter for Ms June Loh**

We approached Ms June Loh of Ritchie Creative Design for the renovations of our home. Being first time owners, we were unfamiliar with the whole renovation process, but June was warm and friendly, and patiently explained what we could do for our place and worked through some design possibilities with us even though there was no guarantee at that stage that we would engage her as our interior designer.

After we decided to go with her, we went through our needs with her, and she came up with designs that we were very pleased with. We are thankful for her help when it came to the selection of colours and materials with our own preferences in mind. With her professional judgement, we were able to choose suitable colour schemes and materials that we had not considered previously, and we are now happy with the beautiful outcome.

During the renovation works, June got down to work promptly right from the first day, and also helped us make appointments with suppliers regarding our lighting and curtain needs. She was also present to give valuable guidance and help us make informed decisions. June was flexible to make additional requirements we wanted at a short notice, and helped us liaise with the contractors when we needed rectifications done during the renovation process.

She upholds a high standard for herself and will not hesitate to get things improved if she spots anything unsatisfactory to her standards. Safety issues that we had overlooked were also pointed out and addressed by June. It is her personal concern and dedication to her clients that make her stand out; she has done more than the boundaries of her job scope and we are grateful for that. Thank you, June, for helping us make our beautiful home a reality!

Yours sincerely,

Colette Chan
